About This Game

Fortune-499 is a game about money and magic. You play a fortune teller working in the magical resources department of a large corporation. You engage in day-to-day office activities such as forwarding emails, attending meetings, fighting back hordes of monsters, and dealing with printer jams. With some tricky magic up your sleeve and your job on the line, it's up to you to build a future out of the hand you've been dealt.

- Battle monsters by predicting their next move.
- Build a deck of fortunes.
- Uncover a plot both magical and mundane.
- Check your email every morning.

Anti Monster League News

Cassandra,

We thank you for your contribution in the fight against monsters in the workplace. But our fight is **not yet over!** This year alone monsters destroyed the livelihoods of hundreds of middle class workers! Our organization was founded in opposition--

I love it! It's stylish, with great music, writing, and art. One of the best little games of 2018. I'm sad it didn't get more attention! I'm going to sing about it from the rooftops!. A very cute game that perhaps gets a bit too difficult with its own mechanics - less of this game is pure rock paper scissors than you might think; later on in the game understanding the order of your deck is key, which made it less fun and more strategic to me. Still, great soundtrack, cool aesthetic, and worth playing. Feels almost Undertale-adjacent in its level of personality.. Cute, thoughtful, immensely entertaining. I would not have thought it would be possible to make a compelling game around Rock-Paper-Scissors mechanics but they do an impressive job of adding a bunch of interesting twists. If you liked Beglitched, you will like this.
